

# MISSOURI CANCER CONSORTIUM

[www.CancerMO.org](http://www.CancerMO.org)

*Working Together* to reduce the burden of cancer in Missouri

[Join Today!](#)

**Our Mission:** Reduce the human and economic burden of cancer on Missourians through the promotion of collaborative, innovative, and effective programs and policies.

## What we do:

- Provide a forum for members to increase their awareness of the issues faced by Missouri residents in their fight against cancer and what is being done to help reduce their burdens.
- Provide an opportunity for members to share their expertise and resources which enables the Consortium to collaboratively plan, develop and implement Missouri comprehensive cancer control initiatives.
- Provide information on cancer prevention, early detection, rehabilitation, and palliation of cancer to reduce the incidence, morbidity, and mortality of cancer in Missouri.
- Promote public awareness of cancer issues, assist health professionals in enhancing their cancer knowledge, enhance funding sources, and encourage provision of services to underserved populations.
